Parliament House  
CANBERRA ACT 2600

Dear Minister

I am writing to convey the outcomes of the meeting of the Sydney Airport Community Forum (SACF) held on 20 May 2011.

The Forum's discussions centred on its continuing interest in the implementation of the Sydney Airport Long Term Operating Plan (LTOP), and on exploring methods to improve the extent to which the LTOP noise sharing targets can be achieved.

Airservices Australia has agreed to make a presentation at the next SACF meeting on air traffic management in Sydney to assist SACF members develop a better understanding of the issues surrounding the implementation of LTOP.

The use of Performance Based Navigation (PBN) technologies is a matter of continuing interest to the Forum and was a matter of some debate during the meeting. In particular members indicated that they wish to be engaged with Airservices as options for implementing PBN at Sydney are explored. As you know, the Forum's clear goal is to ensure that as PBN is introduced in Sydney it is done in a way that spreads rather than concentrates aircraft noise.

Yours sincerely

**Peter Fitzgerald**  
Chair
